Claims 1-39. (cancelled)

Claim 40. (new) A method for administering supplement feed materials to a horse or dog, comprising:

- (a) providing a multiple-sectioned unitary package, the package comprising a plurality of the package sections;
- (b) adding to one or more package sections one or more edible supplement feed materials that have been selected for a specified horse or dog,  
the one or more feed materials chosen from among vitamins, minerals, chemical entities, electrolytes, proteins, or herbs; and
- (c) administering the supplement feed materials from the package to the horse or dog.

Claim 41. (new) The method of claim 40 wherein the plurality of package sections contain distinct feed materials.

Claim 42. (new) The method of claim 40 wherein at least one package section contains a supplement containing a vitamin, at least one package section contains a supplement containing a mineral, and at least one package section contains a protein supplement.

Claim 43. (new) The method of claim 40 wherein the package sections are filled with an amount of feed material that corresponds to a specified horse or dog.

Claim 44. (new) The method of claim 40 wherein the package sections are filled with distinct feed materials that have been previously selected for a specified horse or dog.

Claim 45. (new) The method of claim 40 wherein the package sections are filled with feed materials to within about 5 weight percent or less of a specified amount.

Claim 46. (new) The method of claim 40 wherein the package contains two sections.

Claim 47. (new) The method of claim 40 wherein the package contains three sections.

Claim 48. (new) The method of claim 40 wherein the package contains four sections.

Claim 49. (new) The method of claim 40 wherein the package contains five sections.

Claim 50. (new) The method of claim 40 wherein the package contains six sections.

Claim 51. (new) The method of claim 40 wherein the package sections are sealed prior to opening the package to administer the feed materials.

Claim 52. (new) The method of claim 51 wherein the package sections are sealed from moisture or external atmosphere.

Claim 53. (new) The method of claim 40 wherein the package is constructed from a flexible material.

Claim 54. (new) The method of claim 40 wherein the package is rigid.

Claim 55. (new) The method of claim 40 wherein the package body is rigid and has a top member.

Claim 56. (new) The method of claim 40 wherein the feed materials are administered to a horse.

Claim 57. (new) The method of claim 40 wherein the feed materials are administered to a dog.

Claim 58. (new) A method for administering supplement feed materials to a horse or dog, comprising:

(a) providing a multiple-sectioned unitary package comprising a polymer material of construction, the package comprising a plurality of the package sections each containing one or more edible supplement feed materials,

the one or more feed materials chosen from among vitamins, minerals, chemical entities, electrolytes, proteins, or herbs;

(b) administering the supplement feed materials from the package to the horse or dog.

Claim 59. (new) The method of claim 58 wherein the plurality of package sections contain distinct feed materials.

Claim 60. (new) The method of claim 58 wherein at least one package section contains a supplement containing a vitamin, at least one package section contains a supplement containing a mineral, and at least one package section contains a protein supplement.

Claim 61. (new) The method of claim 58 wherein the package sections are filled with an amount of feed material that corresponds to a specified horse or dog.

Claim 62. (new) The method of claim 58 wherein the package sections are filled with distinct feed materials that have been previously selected for a specified horse or dog.

Claim 63. (new) The method of claim 58 wherein the package sections are filled with feed materials to within about 5 weight percent or less of a specified amount.

Claim 64. (new) The method of claim 58 wherein the package contains two sections.

Claim 65. (new) The method of claim 58 wherein the package contains three sections.

Claim 66. (new) The method of claim 58 wherein the package contains four sections.

Claim 67. (new) The method of claim 58 wherein the package contains five sections.

Claim 68. (new) The method of claim 58 wherein the package contains six sections.

Claim 69. (new) The method of claim 58 wherein the package sections are sealed prior to opening the package to administer the feed materials.

Claim 70. (new) The method of claim 69 wherein the package sections are sealed from moisture or external atmosphere.

Claim 71. (new) The method of claim 58 wherein the package is constructed from a flexible material.

Claim 72. (new) The method of claim 58 wherein the package is rigid.

Claim 73. (new) The method of claim 58 wherein the package body is rigid and has a top member.

Claim 74. (new) The method of claim 58 wherein the feed materials are administered to a horse.

Claim 75. (new) The method of claim 58 wherein the feed materials are administered to a dog.
